SUMMARY

As a MERN stack developer, I'm skilled in JavaScript for dynamic interfaces and have built user-friendly web apps with React.js. I create scalable server-side applications using Node.js and design efficient MongoDB databases. Proficient in HTML/CSS, I ensure visually appealing frontend components. I excel in RESTful APIs, Git/GitHub, debugging, and deployment. My collaborative approach, problem-solving skills, and commitment to learning contribute to effective development in line with industry trends.

EDUCATION

Full Stack Development Program

Ekeeda Education / Mumbai

2023 - 2024

BE - Computer Science

Gnanamani College of Technology / Namakkal

2018 - 2022

7.39%

HSC

Govt.Hr.Sec.School / Poonthottam

2017 - 2018

66.25%

SSLC

Govt.High School / Koothanoor

2015 - 2016

85.8%

SKILLS

- HTML
- CSS
- Bootstrap5
- JavaScript
- Python
- React.JS
- JQuery
- Node.JS
- Express.JS
- MongoDB
- TailwindCSS
- Redux
- GIT
- Github

LANGUAGES

- Tamil
- English

PROJECTS

GitHub Application using MERN Stack

Project Overview: Developed a full-stack GitHub application leveraging the MERN stack (MongoDB, Express, React, Node.js) to provide users with an intuitive interface to interact with GitHub's API, view repositories, and manage issues.

• **Key Features:**

User Authentication: Implemented user authentication using OAuth2, allowing users to securely log in with their GitHub credentials.

Repository Search and Display: Enabled users to search for repositories and display relevant information such as stars, forks, and open issues.

Responsive Design: Ensured a seamless user experience across various devices using responsive design principles.

Deployment: Deployed the application on Render with continuous integration and deployment pipelines using GitHub Actions.

• **Technologies Used:**

Frontend: HTML5 , CSS3 , React.JS , TailwindCSS

Backend: Node.JS , Express.JS

Database: MongoDB , Mongoose

Authentication: OAuth2 (GitHub)

Deployment: Render, GitHub Actions

Version Control: Git, GitHub

CERTIFICATIONS

FULL STACK WEB DEVELOPMENT PROGRAM

Ekeeda Education / Mumbai.

2023 - 2024

- Completed an intensive MERN Stack development course covering MongoDB, Express.js, React, and Node.js.
- Gained hands-on experience building full-stack web applications from scratch.
- Implemented RESTful APIs, user authentication, state management, and deployment processes.
